Chateau Třešť

A UNIQUE  
MARRIAGE  
OF STYLE AND  
ARCHITECTURE

## INTRODUCTION

Just as the mystical Castle from F. Kafka's novel emerges from the fog, so also the Třešť Castle is revealed in all its beauty after the general reconstruction. Go with us to the places where the Rural Doctor as well as Mr. Tau operated and enjoy a perfect stay in the conference center of the Academy of Sciences of the Czech Republic - at the castle in Třešť.

### HISTORY

The Neo-Renaissance castle in Třešť, only 15 minutes from Jihlava, is one of the historical gems of the Vysočina Region. It was built in 1513 in the original Gothic style as a noble residence. Since 1984, the castle and the adjacent park have been the property of the Academy of Sciences of the Czech Republic. In 1994, the first reconstruction of the castle took place, when the castle was transformed into a stylish castle hotel with a restaurant. In 2018, the castle closed again for public and underwent a demanding and long renovation. Upon reopening in June 2022, guests can enjoy a unique marriage of style and architecture.
